$y = x - 2$

You can buy work gloves from The Fix It Store's web site according to the formula

$C = 5g + 2$ *where C is the cost in dollars and g is the number of pairs of gloves.*

a)Make a table to show the number of pairs of gloves purchased in relation to the total cost. Use five values for *g.*

b)Graph the ordered pairs

c)Does the relation appear linear? Why?

d)Are there other points possible between the ones on the graph? Explain.

e)What might 2 represent in the formula?
